Sara,

The attachment to this message contains the slides that the Riverside Ag Park Offsite Evaluation Team (Amit, Greg S., Riz) plan on sharing with the community workgroup tomorrow – Thursday.

This is simply an FYI for you -

Subject: RE: Slides for Upcoming Presentation (Neighbourhood Evaluation)

Hi Amit,

These slides have a lot of graphic/visual appeal. I love that. I'm thinking you and Greg S. are planning to launch into discussion based on the graphic slide- that is no intro or background information slide. I don't know how informed the community group is or how familiar they will be looking at models, but I would expect to have a lot of digestion time needed to absorb the information, which I'm sure you are aware of. That said, easy on the jargon- as you know, that will distance them from you

I inserted comments in your presentation. My main comment is to include an additional slide that is closer or zoomed into those 13 homes. In each backyard, place a boundary square in the backyards to point out the area(s) you will aim to collect the four samples from. This can give a visual presentation that you do not intend on sampling in the homes.

Thanks, and see you on Thursday

Russ

Hi Patrick and Russell:

Thank you for your ongoing support on this project. Please find the attached slides for you to review. We are planning to present to the workgroup. Note that we have kept it simple and with less words. We will be explaining the slides in detail during the discussion and asking the workgroup's feedback.

Please let us know if need any clarifications. Thanks.
